

**RESOLUTION**  
**Adopted at the March 5, 2024 Meeting of the**  
**Village of Buchanan Board of Trustees**

RESOLUTION: SPECIAL PERMIT, SITE DEVELOPMENT PLAN AND STEEP SLOPES DISTURBANCE PERMIT APPROVALS

PROPOSED: Buchanan Dev AMS LLC – Multi-family Apartment Development

LOCATION: Albany Post Road (NYS Route 9A)

TAX MAP  
DESIGNATION: Section 43.16, Block 3, Lots 16 and 16A and Section 43.20, Block 2, Lot 2

ZONING: C-2 General Commercial and the C-1/C-2 Overlay Zoning District

WHEREAS, on or about January 10, 2023, the Buchanan Dev AMS LLC (the “Applicant”) submitted a petition (the “Petition”) to the Village of Buchanan Board of Trustees (the “Village Board”) for: an amendment to the Zoning Map of the Village of Buchanan; amendments to the Zoning Code of the Village of Buchanan (the “Zoning Code”) generally affecting the C-1/C-2 Overlay Zoning District; and amendments to the Village Code of the Village of Buchanan (the “Village Code”), all to permit the development of a 148 unit multi-family residential community (the “Project”) at the property located on the east side of Albany Post Road at the southeast corner of its intersection with Craft Lane (the “Project Site”) in the Village of Buchanan; and

WHEREAS, on September 5, 2023, following an exhaustive review under the State Environmental Quality Review Act (“SEQRA”) the Village Board, acting as Lead Agency adopted a negative declaration of environmental significance (the Negative Declaration”) in connection with the amendments to the Zoning Map, Zoning Code, the Village Code and the Project; and

WHEREAS, on September 5, 2023, the Village Board rezoned a portion of the Project Site formerly located in the M-1 Light Industrial District to the C-2 General Commercial District and rezoned the entire Project Site to C-1/C-2 Overlay Zoning District (the “C-1/C-2 Overlay District”) and adopted certain modifications to the Zoning Code and the Village Code to accommodate the Project at the Project Site; and

WHEREAS, on or about October 17, 2023, the Applicant submitted an application to the Village Board for a Special Permit under the C-1/C-2 Overlay District, Site Development Plan Approval, and a Steep Slopes Disturbance Permit to permit the development of the Project on the Project Site; and

WHEREAS, the Project consists of the development of a multi-family residential community comprised of four (4) residential stories above a one (1) story parking structure containing 148 dwelling units with a unit mix consisting of sixty-three (63) one-bedroom units and eighty-five (85) two-bedroom units, together with 223 parking spaces, 149 of which will be located in the parking structure beneath the first floor of the building<sup>1</sup> and 74 of which (including 12 parking space for electric vehicles) will be located in an open-air parking area northwest of the proposed building; and

WHEREAS, the application submitted on or about October 17, 2023 consisted of the following materials:

- Cover letter from Janet J. Giris, Esq. of DelBello Donnellan Weingarten Wise & Wiederkehr, LLP, dated October 17, 2023 which included a project overview, and discussion of the applications including compliance with the supplementary district regulations for the C-1/C-2 Overlay District contained in Section 211-24.1 of the Zoning Code and the general special permit objectives contained in Section 211-42(B) of the Zoning Code;
- A completed Application form; and
- A copy of the previously submitted long Environmental Assessment Form;
- A set of site plan drawings consisting of the following sheets:

WHEREAS, on February 7, 2024, the Village Board continued its review of the application including a discussion of such design related items as the visual impact of the proposed rock cut wall and the potential landscape treatment of the Albany Post Road frontage; and

WHEREAS, on February 28, 2024, the Village Engineer submitted an updated review memo; and

WHEREAS, on March 1, 2024 the Applicant submitted the following documentation to the Village Board:

- Cover letter dated 2/28/28 from JMC responding to comments raised by the Village Planning Consultant and the Village Engineer.
- Drawing set prepared by JMC last revised 2/28/24, including:
  - Site Layout Plan
  - Site Grading Plan
  - Site Utilities Plan
  - Site Landscaping Plan
  - Cross-Section Exhibit

WHEREAS, on March 5, 2024, the Village Board continued its review of the application and conducted a public hearing on the application at which all members of the public were invited to attend and comment on the application;

NOW, THEREFORE, BE IT RESOLVED that the foregoing recitals are incorporated herein by reference and are fully adopted as part of this Resolution; and be it further

RESOLVED, that having reviewed the entire record as noted above, in relation to the Special Permit, the Village Board considered the following Special Permit criteria contained in §211-42.B of the Zoning Code and hereby finds that the Project is consistent with each of the criteria as follows:

1. All proposed structures, equipment or material are readily accessible to fire and police protection.

The Applicant has consulted with the Fire Department in its design and location of the proposed building to ensure adequate emergency access to the building. The site design includes an emergency access lane on three sides of the building which will provide adequate access to the building for emergency vehicles, including fire apparatus and police vehicles. In addition, at the suggestion of the Planning Board standpipes are proposed on the east side of the Proposed Building to further enhance fire protection.

2. The proposed use is of such location, size and character that, in general, it will be in harmony with the appropriate and orderly development of the district in which it is proposed to be situated and will not be detrimental to the orderly development of adjacent properties in accordance with the zoning classification of such properties.

The Project is of such location, size and character that it will be in harmony with the appropriate and orderly development of the C-2 District. It complies in all aspects with the requirements of the Zoning Code, and is consistent with and will advance numerous long-term planning goals and objectives of the Village as contained in the Village's Comprehensive Plan: the Project will increase revenue for the Village and other associated districts via real property taxes generated by the residential development on a site currently assessed as vacant land; the Project will provide residential rental opportunities not currently available in the Village, helping to diversify the housing types available in the Village; enhance the pedestrian circulation infrastructure with new sidewalks and crosswalk; introduction of new discretionary spending by each of the 148 new households, some portion of which will be spent in the greater Buchanan community.

3. The location and size of such use, the nature and intensity of operations involved in or conducted in connection therewith, its site layout and its relation to access streets are such that both pedestrian and vehicular traffic to and from the use and the assembly of persons in connection therewith will not be hazardous or inconvenient to, or incongruous with, or conflict with the normal traffic of the neighborhood.

The location and size of the use, the nature and intensity of the operation, its site layout and relation to streets will not be hazardous or inconvenient to, or incongruous with or conflict with the normal traffic in the area. During the SEQRA review

process, the Applicant submitted a Traffic Impact Study which assessed the potential traffic and transportation impacts of the Project. Based on that analysis, the Village Board determined that the Project would not result in any significant adverse impact to traffic on the adjacent roadway network. In addition, the Village Board determined that Project will result in an improvement to the pedestrian environment in the area by providing sidewalks along the frontage of the Project Site extending along the adjacent property associated with the existing hardware store and a crosswalk across Albany Post Road which will enhance connectivity to the Village Center, consistent with the goals of the Village's Comprehensive Plan and the C1/C2 District Design Guidelines.

4. The location and height of buildings, the location, nature and height of walls and fences and the nature and extent of landscaping on the site are such that the use will not hinder or discourage the appropriate development and use of adjacent land and buildings.

The Project has been thoughtfully designed to take into consideration the features of the Project Site. It has been designed in compliance with the requirements of the Zoning Code and advances a number of the Village's goals as contained in the Comprehensive Plan. Accordingly, the location and height of the building, the location, nature and height of fences and landscaping are such that the Project will not hinder or discourage the appropriate development of adjacent properties. The Applicant has prepared a landscape program along the Albany Post Road frontage that includes decorative lighting and enhanced landscaping that improves the visual image and effectively screens the proposed surface parking area. The use of wire mesh on the proposed rock cut wall is specifically prohibited as part of this site plan approval.

The impact of the proposed use will not engender avoidable impacts upon the environment of the site or adjacent lands and that any such impacts will be the minimum necessary to accommodate the proposed use, and further that there will be the maximum preservation of unique ecological or environmental assets particularly as such effect the value and viability of adjacent areas.

As contained in the Negative Declaration, the Project has been designed to limit disturbance to steep slopes on the Project, and to preserve natural features on the Project Site, including the waterbody on the southern portion of the Project Site which includes a robust landscape planting program, to the maximum extent practicable; and be it further

RESOLVED, that the Village Board hereby determines that the Project is consistent with the standards contained in Section 211-26 of the Zoning Code related to Site Development Plan Approval including:

1. The Project has been designed to be harmonious in its relationship to adjacent properties and streets, and careful consideration has been given to the architectural design of the building, the provision of off-street parking and loading areas, landscaping, buffering, open areas and exterior lighting;
2. Access to the Project Site has been designed for maximum safety and convenience of vehicular and pedestrian use, as well as circulation within the site;
3. Adequate utility services, including water and sewer, are available to the Project Site and the Project; the Project includes stormwater infrastructure which has been designed in accordance with State and local regulations; Solid waste disposal and recycling will be provided by private carting service.
4. The Project has been designed to minimize disturbance to limit disturbance to steep slopes on the Project, and to preserve natural features on the Project Site, including the waterbody on the southern portion of the Project Site, to the maximum extent practicable; although no direct incursion into the wetland is proposed as part of the Project, construction of the stormwater treatment practices and the fire access lane and sidewalk at the southern side of the building will result in the disturbance the wetland buffer area. Although the requirements of Chapter 203 of the Village Code are not applicable to the Project pursuant to Section 203-10 of the Village Code, the Applicant has nevertheless proposed an enhanced mitigation plan which includes planting trees, shrubs, ground cover and a wildflower/grass seeding mix within the wetlands buffer area. Additional wetland mitigation measures to the buffer area include the removal of trash, debris, dead and overgrown vegetation, and invasive plants followed by an organic herbicide treatment;
5. The Applicant has demonstrated that the Project is consistent with and will advance numerous long-term planning goals and objectives of the Village as contained in the Village's Comprehensive Plan and C1/C2 Overlay District Design Guidelines; and be it further

RESOLVED, considered the proposed building design in light of the purposes for design review as outlined in Article 7, §211-26.A. Design, with respect to architectural design of buildings, signs and other structures and finds that the design as depicted on the Architectural Plans and finds that the design is consistent with and has a harmonious relationship with the Project Site and adjacent properties and streets; and be it further

RESOLVED, that the Village Board hereby determines that the proposed disturbance of steep slopes for the Project is consistent with the standards contained in Section 165-6 of the Village Code, and a Steep Slopes Disturbance Permit is hereby granted; and be it further

RESOLVED, that the Village Board has reviewed the EAF and the entirety of the record and concludes that the Proposed Action is consistent with the Negative Declaration issued as part

of the Zoning Map and Zoning Code amendment process, and no further action is required by the Village Board under SEQRA; and be it further

RESOLVED, that the applications for Special Permit and Site Development Plan Approval are hereby granted, and the Applicant may obtain the endorsed approval of the Mayor on a copy of this Resolution and upon the site plan drawings, which endorsement shall permit filing in the Buchanan Building Department for purposes of obtaining building permits in accordance with this Resolution and all applicable building code requirements subject to the conditions identified below:

1. The Site Development Plan approval granted herein shall expire if the following conditions have not been satisfied: (a) submission of an application for building permit within one year of the adoption of this Resolution; (b) Commencement of construction within six (6) months of the issuance of a building permit; and (c) completion of construction within three (3) years of the issuance of a building permit. Extensions of the Site Development Plan approval may be granted for good cause by the Village Board at the request of the Applicant for periods of six (6) months each. Any material change to the approved Site Development Plan resulting from an approval required by another approving entity (e.g., NYS DOT) shall require the Applicant to appear before the Village Board for an amendment to this Site Development Plan approval.
2. In accordance with Section 211-43B. of the Zoning Code, the Special Permit granted herein shall be deemed to be of indefinite authorization but shall expire eighteen (18) months from the date of this approval unless a building permit has been issued. This period may be extended by the Village Board at the request of the Applicant for periods of six (6) months each.

#### CONDITIONS PRIOR TO ENDORSEMENT OF SITE DEVELOPMENT PLAN

The following conditions shall be satisfied by the Applicant prior to the endorsement of the Site Development Plan by the Mayor:

3. Documentation, sufficient in form and substance for the Village Engineer that the list of items outlined in the Village Engineer's 2/28/24 correspondence have been incorporated onto the Site Plan drawings or otherwise addressed.
4. This Resolution authorizes the Applicant to undertake only the activities specifically set forth herein, in accordance with this Resolution and as delineated on the Site Development Plan as endorsed by the Mayor. Any change in use, material alteration or modification to the Site Development Plan shall require review and approval by the Village Board of an amended Site Development Plan.

5. In accordance with Section 211-28D. of the Zoning Code, the Applicant shall pay to the Village any outstanding professional review fees.
6. The Applicant shall furnish the Village with three (3) print sets of the Site Development Plan as described above, for endorsement by the Mayor and an electronically scanned version of the approved plans.
7. Upon payment of all required fees and the satisfaction of conditions 1 through 6 of this resolution and following the endorsement of the Site Development Plan by the Mayor, one printed set will be returned to the Applicant, one set shall be retained by the Planning Board as a record copy, and one set provided to the Building Inspector. The Applicant shall submit a scanned, endorsed electronic version of the approved Site Development Plan to the Village Administrator.

#### CONDITIONS PRIOR TO THE ISSUANCE OF A BUILDING PERMIT

The following conditions shall be satisfied by the Applicant prior to the issuance of a Building Permit:

8. Satisfaction of conditions 1 through 6 above.
9. Issuance of a Building Permit by the Building Inspector shall be fully based on, and in accordance with this Resolution and the endorsed Site Development Plan. The Building Inspector shall include reference to the Site Development Plan and this Resolution on any Building Permit.
10. All construction drawings shall be in compliance with the New York State Uniform Fire Prevention and Building Codes.
11. The Applicant shall pay the Village of Buchanan application, permit, and review fees as required by the Village Code, as approved by the Village Attorney.
12. In accordance with §90-7 and §211-28 of the Village Code, the Applicant shall deposit an initial sum of money to be held in escrow by the Village in an amount be established by the Village Administrator to be used to reimburse the Village for costs incurred by the Village in connection with review of any applications by Village consultants. Costs may include consultant fees for planning, engineering, legal and other professional and technical services required for the proper and thorough review of an application.
13. All signage shall be constructed and installed in conformance with §211-20 of the Zoning Code, and the required permit shall be obtained prior to installation.

14. In accordance with Section 211-28B. of the Zoning Code, the Applicant shall be required to post a performance bond or other type of acceptable monetary guaranty which shall be in an amount determined by the Village Administrator and Village Engineer and in a form satisfactory to the Village Attorney sufficient to secure the satisfactory construction and installation of all required roads, sidewalks, water supply, sewerage and storm drainage systems, grading, landscaping and all other site improvements, but not including building construction.

PRIOR TO THE ISSUANCE OF A TEMPORARY OR PERMANENT CERTIFICATE OF OCCUPANCY

15. The Village Board has determined that locating additional recreational uses, over and above the proposed indoor and outdoor recreational amenities proposed for the Project's residents, is not practicable given the environmental constraints on the Project Site. Therefore, the Applicant, shall be required to pay a fee-in-lieu of providing such additional on-site park space prior to the issuance of a certificate of occupancy for the Project in accordance with Section 211-27.1 of the Zoning Code and the Village fee schedule in effect as of the date of this Resolution.
16. In accordance with Section 211-28C. of the Zoning Code, the Applicant shall be required to post maintenance security in an amount determined by the Village Administrator and Village Engineer and in a form satisfactory to the Village Attorney to guaranty the establishment of landscaping in a vigorous growing condition, screening and safety devices and to ensure the general cleanliness and proper housekeeping of the Project Site. Such maintenance security shall remain in effect for a period of two (2) years from the date of the issuance of a certificate of occupancy.
17. As required by Section 211-32 of the Village Code, the Applicant shall submit as-built building plans and an as-built survey prior to the issuance of any Temporary or Permanent Certificate of Occupancy (C of O). The as-built plans shall be reviewed by the Village Consulting Engineer. Any material change from the Site Development Plan approved as part of this RESOLUTION shall require the Applicant to seek amended Site Development Plan approval.
18. Prior to performing work in the NYSDOT right of way, the Applicant shall obtain a highway work permit from the NYSDOT. Prior to the issuance of a C of O, the Applicant shall complete of all traffic mitigation measures including all pedestrian and roadway improvements identified by the NYSDOT as well as the Village traffic consultant.
